

This document last revised 27 May 2017

This document lists all the items which are owned by the Wolds Historical Organisation.

Most are documents – some originals but mostly photocopies and research notes. There are also some artefacts.

There are four broad 'sections' to this list:

1. Miscellaneous documents (accession numbers 2017/0001 onwards)
2. Documents given to the WHO after the death of former Chair Alec Moretti (accession numbers 2017/0101 onwards)
3. Documents and photographs given to the WHO by Bob Trubshaw in 2008 (accession numbers 2017/0201 onwards)
4. Artefacts (accession numbers 2017/5001 onwards)

If you have specific interests then use the Find function of your PDF viewer (or CTRL+F if no button is visible). Note that records are rarely indexed with all the names of families or properties mentioned.

The documents and artefacts are stored in six different locations, none accessible without prior arrangement with the relevant 'custodian'. While members of the WHO committee will attempt to answer any questions, or to make selected documents available physically or digitally, any such requests will take time to resolve.

Moretti's documents**

Description:

Type: photocopies and research notes

This folder contains copies of some of the items deposited with the Record Office for Leicester, Leicestershire and Rutland in 2003.

N.B. The list following describes what was donate to ROLLR, not the copies retained in this folder.

MISCELLANEOUS DOCUMENTS

1. Account note re horse hire July 1890
2. Account notes (3) re mortgages, purchases etc.
3. Accounts re Mrs Ashwell and children 1812-1813
4. Letter from Mrs Ashwell acknowledging receipt, not dated.

These documents probably relate to the Ella family but are not identified as such.

There are names of some people involved – Joan Shaw 2003.

PAPERS RELATING TO WILLIAM FISHER

1. Letter re bells 2nd October 1795
2. Receipt from Trinity College, Cambridge, for rent from Mrs Fisher 1798.

The letter presumably refers to the Wymeswold church bells. Papers relating to the church may confirm. Since Alec has put the receipt addressed to Elizabeth Fisher in the same file I assume she is the mother or wife of William – Joan Shaw 2003.

PAPERS RELATING TO MICHAEL ELLA

1. Account of sales of property of the late Michael Ella 27th September 1799.
2. Michael Ella's account with Bentley and Buxtons 7th April 1795.

It looks as if the property sold may have been in Loughborough but details are given of advertisements in the Leicester paper so they shouldn't be too difficult to find. If it does refer to Wymeswold it would be very interesting. The account with Bentley and Buxtons looks as if it may be in respect of money borrowed – Joan Shaw 2003.

Field walking finds

Roman, medieval and more recent pottery recovered by systematic field walking of fields around Wymeswold village. Each sherd is identified by an OS grid reference and the stint-and-traverse reference (see report in 2017/2014). The *opus signinum* and slag are not marked with a grid reference but all came from adjoining stints of Hardacre field (see the report for details).

Near the Roman pottery some lumps of *opus signinum* (Roman 'concrete' used for floor surfaces) was found and some slag. The slag is undatable and may be Roman. However there may have been occupation continuing here into the Anglo-Saxon era (although no direct evidence has been found); if so the slag could be later than the Roman era.

Description:

Copy of 'The Pearl Reference Bible' published by The London Bible Warehouse

Bookplate inside front cover printed with 'Wesleyan Methodist Sunday School' and handwritten inscription 'Hoton' and 'Ernest Smith February 1904'.

Ernest Smith was baptised at Hoton 1st October 1892 and buried there 1st February 1963.

The Bible is typical of those given as Sunday School prizes in the first half of the twentieth century. The text is in exceptionally small print; the Old Testament has coloured photographs of relevant places while the New Testament is illustrated with coloured paintings depicting Christ (in a style subsequently regarded as overly sentimental).

Description:

Type: artefact

key for St Mary's church

One of several cast iron keys formerly used to lock the main (north) door of St Mary's church until replaced by more modern locks.

This key was purchased by Bob Trubshaw on 28th May 2016 from John Hawkins at a yard sale at his home on Far Street. His wife is a member of the Jalland family; around the 1960s one of the Jalland family was a churchwarden at St Mary's, so would have been given a key.

In the late 1980s – when there was considerable consternation about the proposed sale of the 'Wymeswold chalice', now on loan to Charnwood Museum – Angela

Thorpe and Isobel Foster informed the WHO committee (and probably others) that for many years this Mr Jalland used to keep the chalice and other liturgical metalwork in the cupboard under his kitchen sink, taking it to the church when needed for services. Presumably this key is the one used by Mr Jalland when he was a churchwarden.
